

EMERGENCY RESPONSE INTERNATIONAL

- An Original Study -

This publication is from the original study done by Bill Syrotuck on Lost Subject Behavior in 1976. It is a reference for search managers and search planners who need the background information.

This 65 page book is a re-format and republished study conducted by Bill Syrotuck in the mid-1970's. All of the information is still relevant today. This study encompasses data from Washington, New York, Idaho, Oregon, California, Alaska, New Mexico, Wyoming and Tennessee.

Book Contents:

- General Aspects of Lost Person Behavior
